SAINT SUNDAY:

Saint Francis of Paola
 Feast Day: April 2nd
 Patron Saint: Sailors

Years Active: March 27th 1416– April 2nd 1507

“Francis of Paola was a man who deeply loved contemplative solitude and wished only to be the “least in the household of God.”

Yet, when the Church called him to active service in the world, he became a miracle-worker and influenced the course of nations.

After accompanying his parents on a pilgrimage to Rome and Assisi, he began to live as a contemplative hermit in a remote cave near Paola, on Italy’s southern sea-coast. Before he was 20, he received the first followers who had come to imitate his way of life. Seventeen years later, when his disciples had grown in number, Francis established a Rule for his austere community and sought Church approval. This was the founding of the Hermits of St. Francis of Assisi, who were approved by the Holy See in 1474. In 1492, Francis changed the name of his community to “Minims” because he wanted them to be known as the least (*minimi*) in the household of God. Humility was to be the hallmark of the brothers as it had been in Francis’s personal life. Besides the vows of poverty, chastity and obedience, Francis enjoined upon his followers the fourth obligation of a perpetual Lenten fast. He felt that heroic mortification was necessary as a means for spiritual growth.”
